

XADO Atomic Oil 75W-90 GL 3/4/5

XADO Atomic Oil 75W-90 GL 3/4/5 Ultramodern synthetic oil for mechanical transmissions. Contains Atomic Revitalizant.

XADO Atomic Oil 75W-90 GL 3/4/5 is a multi-purpose multigrade synthetic oil of extra-quality for all the units of mechanical transmissions of cars and trucks (transmissions, transfer boxes, differential gears).

Description:

- ❖ Recommended for transmission units of modern cars using easy-flowing synthetic oils.
- ❖ Provides comfortable gear shift due to perfect synchronization of the working gears.
- ❖ Especially effective for heavy-loaded hypoid gearings and self-locking differentials.
- ❖ High stability of the performance level (stable to oxidation and aging), provides maximum possible oil change intervals and is used in the units

with a single oil filling for the whole period of operation.

- ❖ Perfect fluidity of the oil provides easy start and smooth transmission operation at very low temperatures (below -40 °C).

Performance level:
